Hello Readers!

There are only thirteen more days of classes for most of us. It is very hard to believe another school year has flown by. About this time of year we usually ask ourselves: Did I do my best this year? How much more I might have done! Will I resolve to work harder next school year? And then on the other hand, the Seniors only have five more days of formal classes before their final examinations, May 24 and 25.

The members of the 1956 graduating class are: Roberta Lewis, Valedictorian; Effie McCoy, Salutatorian; Viola Johnson, Third Honor Student; Gloria Jenkins, Helen McCoy, Henreitta Ferguson, Beatrice Morgan, Barbara Johnson, Kathleen Walker, Shirley Johnson, Laura Hubbard, James Ferguson, and James Williams. Commencement exercises will be held on Wednesday, June 6.

The Girls Physical Education Demonstration will be held Wednesday night, May 23, at 8:00 o'clock, in the Gymnasium, This event is a culmination of the year's work in the P. E. classes. Activities will include a special drill team led by majorettes, calisthenics, pyramids, creative dances, folk dances from land, Sweden, Spain, tap dances and square dances. The night is planned especially for parents and friends to see what activities done through the physical education program. Be sure to remember this date on your calendar and bring other friends with you. We expect you, May 23, at 8:00.

Until next week, remember "Cheerfulness is like the sun. It dispels mental fogs, warms the cold heart, makes a delightful climate, and as we journey through life throws the shadow of our load behind us."

OVER 175 HORSEPOWER IN RESERVE!
... when you're cruising at everyday speeds!

"88" HOLIDAY SEDAN
THE ROCKETS EXTRA MARGIN OF POWER MEANS AN EXTRA MARGIN OF SAFETY!
HIGH HORSEPOWER . . . high torque . . . high compression. It takes all three to describe Oldsmobile's Rocket! But there's still another important side to the picture.
It's *reserve power* — in abundance! In fact, at normal cruising speeds the Rocket still has *more than 175 horsepower* left . . . beyond what it takes to propel the car! It's this reserve that whips you through a passing situation so quickly, so effortlessly.
That means economy, too! The Rocket just eases along, when lesser engines are straining. You can see the result in Oldsmobile's *double victory in the Mobilgas Economy Run!*
The modern "big bore"—short stroke" design cuts friction and power loss. The Rocket's design made high compression practical . . . and today's Rocket hits a high 9.25 to 1 compression!
Come take the wheel of a Rocket Oldsmobile. You will feel a distinct difference in performance, in riding and handling qualities . . . just as you see a glamorous difference in Oldsmobile's beauty. We'll be looking for you *soon!*

From where I sit ... *by* Joe Marsh

Doc Nurses a Daydream
It's a treat when I get together with Doc Sherman. *The Clarion* keeps me much too busy—and Doc, well I think he puts in sixteen hours a day at the hospital.
But Tuesday—a beautiful day—he and I slipped away for a ride around Turtle Lake. Doc's driving a 1956 humdinger—it's like riding on a cloud.
Anyway, at one point Doc slowed almost to a halt. "Used to fish there as a boy, Joe," he said. "Used to sit and imagine myself up on the highway driving a high-powered car. Nowadays, I just sit here and wish I were down there again."
From where I sit, few of us are ever content with the way things are at any given moment. It's human nature. On the other hand, I've been rooting for years that someday *everybody* will show enough good American tolerance to respect his neighbor's right to enjoy a friendly glass of beer. When that day comes I assure you that I'll *never* want to change back.

Local Motor Co. Announces Building Plans

Appomattox in Spotlight on School Hassle

Appomattox was back in the news spotlight this week, as a barrage of publicity followed a decision of the County School Board not to renew the contracts of two local high school teachers. The three - member board, composed of T. D. Evans, J. O. Davidson and T. J. Ligon, is said to have authorized division superintendent J. A. Burke to notify the two teachers that their contracts would not be renewed, but no formal reason for the action or "charges" appeared. This action set off a chain of rapid-firing developments, focused around what reasons the board might have had in mind for this unexplained decision, and all week the daily press, television and radio have discussed the situation.

Editorials under the headings of "Intolerance" and "Thought Control" have appeared in the two daily newspapers in Lynchburg, and the news stories have revolved around what, if any, recourse the teachers might have available.

Recounting the publicity, it seems that the personal views of the two teachers on the matter of integration were involved, although both are said to have disclaimed being "integrationists." This is the first time that the integration issue has been at stake in Appomattox County, although it has been a live topic throughout the South since the Supreme Court ordered an end to racial segregation in schools.

In spite of all the publicity and discussion, it appears that the school board will hold to its decision, and the two teachers are said to have decided not to press demands for an investigation on the grounds that to do so would place their fellow teachers in the role of participants in the issue.

Sentiment for efforts to continue segregation is very strong in Appomattox and all Southside counties, and the advocates of every possible means of continuing schools as they are have strong support. It has been the ardent desire of many citizens that means of keeping the public schools in operation as in the past might be found without resulting unpleasantness.

Local Department Store Sold

As we go to press, we are informed that a deal is being consumated whereby Jenkins Department Store here will be acquired by W. C. Averett, of Crewe.

The local store was purchased in 1941 by C. S. Jenkins from the late L. E. Smith. Mr. Jenkins also operates Inge's Department Store, and will continue that business. It is understood that reasons of health motivated Mr. Jenkins in his decision to operate only one store here.

Mr. Averett is now with the firm of Oakley & Averett in Crewe, and their partnership has a connection in three other stores in the Southside.

No definite date has been set for the proposed transfer of ownership and business will continue as usual pending the working out of details of the transaction.

We are informed that the new owner would plan to operate a complete department store, featuring full lines of ready-to-wear.

This wonderful liquid that flows through our blood vessels is greatly needed today as it was during the past war. Our blood bank is almost depleted and the response to the call for blood donors is poorly answered.

"Won't you please come to the Liberty Baptist Church on June 18, 1956, and offer your service? There will be a physician present and after an examinigtion if he thinks you are able to give blood, then you may. You will never miss this small amount of blood, but you may save someone's life."
